OBSERVE. REPORT. SURVIVE.

An observation-horror game built around memory, attention, and mounting pressure.

ABOUT THE GAME

Welcome to the night shift at the Observation Unit. Your job appears simple: monitor the live security feeds and make sure every room remains exactly as it should be. But this is no ordinary facility. Furniture moves, paintings change, shadows stretch, and unnatural entities enter the frame. Identify each anomaly and file the correct report before the situation escapes your control. Miss too much, and whatever is watching will reach you.

KEY FEATURES

- Monitor rooms through an unsettling network of surveillance cameras.
- Spot moved objects, altered images, strange shadows, intruders, and supernatural entities.
- Choose the correct report quickly as anomalies become more frequent and dangerous.
- Take on 40 observation levels designed to test memory and attention to detail.
- Carry progress across Xbox and Windows PC with Xbox Play Anywhere and cloud saves.
- Play with 4K Ultra HD support, Smart Delivery, and Xbox achievements.
